

# Cynic Hell Reality

**Music: C.Felauer/ Meisen**

**Lyrics: Meisen**

2000 years ago the king of slavery was born  
Jesus Hitler Adolf Christ fascism never gone  
Worship him, sell your soul – beaten, ripped and torn  
Subtle terror, rhetoric hate, offer him your soul

Lunacy – perversity – end time war – in the name of god

Jesus saves if you believe – inhumane biblical law  
Millions dead for disbeliefs violence and gore  
Son of god a virgin birth sadistic sacred whore  
Lucifer justifies misanthropic wars

I open your eyes the true face of god  
Satan is the best friend the church ever had  
He's the one to blame to point your fingers at  
Brainwashed disciples violent and mad  
Dysfunction of your mortal life repent or burn  
When I'm dead I want to rot, this is what I yearn  
And if we go to hell for this we just don't care  
We'll meet our friends and shake their hands, yes we dare

So why do I feel sympathy and god not  
It's a reversal of all values and rules  
No one shall be forsaken for all time  
Blind neurotics to the Sado-God  
No guilty conscience when you're saved and the damned are burning  
The ego the truth behind Christianity  
It's a hate campaign and fear kills your mind  
It's a cynic reality a cynic hell reality

Satan is the tempter of his imperfection race  
Free will as a sin so you shall fall from grace  
Injustice, painful, hopeless – these are our days  
Cynic hell reality unfathomable his ways

Misery – sickness – eternal death – in the name of god
