

# My Own Worst Enemy

**Music: T&C Felauer**

**Lyrics: Meisen**

Dejected by my emotions  
a certain fear fucking my mind  
stared too long into the blackness  
a sea of blood is where I'm drowned  
haunted by inner demons  
they laugh at me they rape my pride  
but now it's time to stop it  
I won't give up I scream and shout

**Chorus:**

fuck off - piss off - clear off  
erase the dark  
the fear dragging me down  
shall disappear  
my mind - my heart - my soul  
refresh the source  
what's left in me can't die  
I will never fall

rejected by my love  
a certain lust boiling my blood  
deep desires breeding torment  
anal fucked deep in my heart  
substitutive satisfaction  
is like a drug easing the pain  
but now it's time to stop it  
this can't go on put up a fight

**Chorus:**

fuck off - piss off - clear off  
erase the dark  
the fear dragging me down  
shall disappear  
my mind - my heart - my soul  
refresh the source  
what's left in me can't die  
I will never fall

all I saw was hatred pain and bullshit in my  
head  
now we kill the virus and we're no more  
walking dead

kill the virus - kill the virus - kill the virus

dejected by my emotions  
a certain fear fucking my mind  
stared too long into the blackness  
a sea of blood is where I'm drowned  
haunted by inner demons  
they laugh at me they rape my pride  
but now it's time to stop it  
I won't give up I scream and shout

**Chorus:**

fuck off - piss off - clear off  
erase the dark  
the fear dragging me down  
shall disappear  
my mind - my heart - my soul  
refresh the source  
what's left in me can't die  
I will never fall
