

Scapegoat

Love turns to hate  
Release of scorn  
Black widows hell  
An adult fairytale

Stop spreading lies  
Tongue sharpened knives  
Fuck off and die  
I'm not your

Scapegoat  
Scapegoat  
For your incapacity  
Scapegoat  
Scapegoat  
Scapegoat  
You miserable fuck

We hail your death  
Cock sucking vampire  
First think then speak  
You brainless hypocrite

Twist the truth  
Justify your deeds  
Spare me your shit  
It never makes sense to me

Repeat Chorus

You treated me like a bastard now I treat you like a whore  
Be careful what you wish for when it's time to face the war  
Life's just a game in the eyes of the insane  
Thank god I screwed you – I screwed you like a hurricane

An eye for an eye  
Time to say goodbye  
Don't need you here  
My friends know why

Endeavours in vein  
Nexus of pain  
Hellish hate ejaculate  
Now it's time to masturbate

Whirlwinds of desolation  
Arise of great depression

Real life's abomination  
Terrorism – Annihilation

Vicious circle of hate  
Never comes to an end
