

The Antichrist

**immortal unholy warmaster
infernal destructive redemption
dissident blasphemous rebellion
decadent immoral seductive purification**

**walk the earth to end them all
invert into uncreation
a punisher for punishers
human race – bastard nation
no dignity for the dying
as they treat their own blood
whimpering in fear
realizing what they've done**

**immortal unholy warmaster
infernal destructive redemption
dissident blasphemous rebellion
decadent immoral seductive purification**

**Don't want you by my side
genocide of a dying race
in love with death as you've always been
infinite silence remains
an act of peace is an act of war
no more sins to come
father Satan guides me through
when god keeps crying**

**immortal unholy warmaster
infernal destructive redemption
dissident blasphemous rebellion
decadent immoral seductive purification**

**mass destruction
no remorse
self destruction
drug abuse
unemployment
no perspective
handicaps
never love**

**I have come
to end your pain
I have come
to be your death**
